All prices exclude VAT

Angled:

Use these for radiators where the pipework is 'from the floor' and the connection on the rad is horizontal. These can also be used on towel rails when the pipework is through the wall.

or

Straight:

Use the Straight type when the pipework is 'from the floor' and the connection on the radiator is vertical.

Manual:

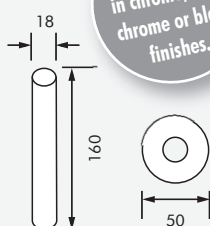

Use for any application.

or

TRV:

User adjustable to automatically control the final temperature of the room.

Sleeving Kit for 15mm copper tube

Now available in chrome, satin chrome or black finishes.

Sleeving Kit for standard type elements
